music industries association

The Music Industries Association is the UK trade association for the musical instrument industry. We represent and support the interests of UK businesses selling musical instruments and associated products. Manufacturers, importers, distributors, publishers, retailers and supporting businesses (e.g. insurers and educators) all come within our scope. Together we undertake activities to stimulate our market and make the industry's views and needs known and appreciated in Whitehall, Westminster and Brussels. All activities are focussed towards our mission:

"CREATING AND ENCOURAGING MUSIC MAKING"

Our member companies can supply every instrument imaginable and associated product (for example, the best of printed music). You can conduct business with any of them, safe in the confidence that they are members of a respected trade body.
